March 2, 2021

Dear Parents and Friends,

We hope that all is well. Here is the latest news….

Vaccines for Educators

Please know that our LCS staff members have scheduled appointments to receive their first vaccine shot in regard to the COVID virus. The hope is that the majority of staff, if not all, will have the vaccination shots by the end of March. This is a huge step towards combatting COVID 19.

In-Person Learners

Please be advised that as of mid-March, 90.7% of our students will be receiving in-person instruction. 9.3% will be continuing with full remote learning. It is exciting to have our students return to our building.

Supporting Children's Well-Being

Please see the attached flyer regarding webinars by the CT State Department of Education regarding the well-being of children. There are a few remaining webinars being scheduled within the near future.

Summer School

We are hoping to have summer school after the school year ends for regular education students in addition to the annual summer school program for special education students. Please see the following link: https://forms.gle/rzraXyzCc2TrLRQc7 , which will bring you to a survey regarding your thoughts about sending your child to this program. Please be advised that all results will go to Principal Brian Apperson. We will keep you posted as to whether this summer school initiative becomes a reality. Thank you for your time in completing this very brief survey.

That is the news for now. Have a good day and a wonderful week.

Sal and Brian
