## **Personnel – Certified**

### **Drug and Alcohol Testing for School Bus Drivers**

Lisbon Public Schools will verify that the transportation provider has a drug and alcohol testing program fulfilling federal regulations, and state law pertaining to a required pre-employment and random drug testing program for drivers of school buses and school transportation.

In addition to the above cited federal requirement, the Board of Education expects its school transportation carrier to provide training to all school bus drivers, including instruction on (1) identifying the signs and symptoms of anaphylaxis, (2) administering epinephrine by a cartridge injector ("EpiPen"), (3) notifying emergency personnel, and (4) reporting an incident involving a student's life-threatening allergic reaction.

Each carrier must provide the training to school bus drivers following the issuance or renewal of a public passenger endorsement to operate a school bus for carrier employees, and upon the hiring of a school bus driver who is not employed by such carrier (e.g., subcontractor), except a driver who received the training after the most recent issuance or renewal of his or her endorsement is not required to repeat it.

### **Drug and Alcohol Clearinghouse Checks for CDL Drivers**

Prior to employment the District/school transportation carrier will conduct a full query of the Federal Motor Carrier Safety Administration's Drug and Alcohol Clearinghouse (Clearinghouse) to obtain information about the driver's eligibility under federal rules to perform a safety-sensitive function. The District/school transportation carrier will also contact prior employers where the applicant was a CDL driver for information to determine the driver's eligibility to perform safety-sensitive functions. (Prior employers' inquiries will continue until January 2023.)

The District/school transportation carrier will conduct a limited query of the Clearinghouse for current CDL drivers who are employees on at least an annual basis. If information exists in the Clearinghouse about a driver, the District/school transportation carrier will conduct a full query within 24 hours to determine if the driver is eligible to perform safety-sensitive functions. If the District/school transportation carrier fails to conduct the full query within 24 hours, the driver will not be allowed to perform any safety-sensitive functions until the full query is conducted and it is determined the driver may perform safety-sensitive functions.

The District/school transportation carrier will report the following information collected and maintained on each CDL driver to the Clearinghouse:

1. A verified positive, adulterated, or substituted drug test result;
2. An alcohol confirmation test with a concentration of 0.04 or higher;
3. A refusal to submit to any test required by this policy or the CDL drug testing program (49 C.F.R. Part 382, subpart C);
4. An employer's report of actual knowledge of the following:
  - a. On duty alcohol use (pursuant to 49 C.F.R. §382.205);
  - b. Pre-duty alcohol use (pursuant to 49 C.F.R. §382.207);

- c. Alcohol use following an accident (pursuant to 49 C.F.R. §382.209); and
- d. Controlled substance use (pursuant to 49 C.F.R. §382.213).
- 5. A substance abuse professional (SAP) (as defined in 49 C.F.R. §40.3) report of the successful completion of the return-to-duty process;
- 6. A negative return-to-duty test; and
- 7. An employer's report of completion of follow-up testing.
