Definitions

Sexual abuse refers to coerced or forced sexual contact or activity that may be ongoing or occurs over time, often within a trusting relationship. Most victims know their perpetrators. Perpetrators are usually older than their victims and may trick or force them into gradually doing the sexual behavior. The sexual behavior may not be violent and may even be pleasurable to the child, who doesn't necessarily know it is wrong. Perpetrators of ongoing sexual abuse control the child/youth through secrecy, shame, or threats. Children cannot consent to sexual contact with adults or older youth, and sexual contact is considered abuse, regardless of whether it includes touching or not.

Sexual assault usually refers to forced or unwanted sexual contact or activity that occurs as a single incident, as opposed to ongoing sexual abuse that may continue over time. It may also involve verbal or visual behaviors, or any type of pressure designed to coerce or force someone to join in the unwanted sexual contact or activity. The assault may involve a similar range of behaviors that are attempted or perpetrated against a victim's will or when a victim cannot consent because of age, disability, or the influence of alcohol or drugs. Sexual assault may involve actual or threatened physical force, use of weapons, coercion, intimidation or pressure. The offender usually takes advantage of the victim's vulnerability. Anyone can perpetrate this type of abuse – a trusted friend or family member, a stranger, a casual acquaintance, or an intimate partner.
