Students

Bicycles

Lisbon Central School encourages students to take advantage of opportunities to enjoy exercise through bicycling. We believe that riding bicycles to school is a beneficial method to increase student fitness and assist students in becoming self-reliant. State law requires that all students up to age twelve, wear an approved bicycle helmet while riding their bicycles. In an effort to improve the safety of Lisbon's young people, we are amending school policy to require the wearing of an approved bicycle helmet by all Lisbon Central School students.

To further insure student safety, we require that at the end of the school day, bicycle riding students refrain from leaving school grounds until all busses have left the Lisbon campus. This policy will insure that students do not interfere with bus departure and allow students a safer, more enjoyable ride home.

Students who are found to be not in compliance with safety policies will not be allowed to ride their bicycles onto school property.
